Mridula Rao

Bengaluru, India · open to relocation · aludrim@gmail.com · linkedin.com/in/mridularao5

SUMMARY

Senior Product Manager with 15+ years across enterprise SaaS, fintech, and consumer product. Owns cross-functional delivery at Morgan Stanley, contributed to scaling a social commerce platform to 1M MAU at Wooplr, and bootstrapped a franchise business. Strong in customer discovery, roadmapping, and stakeholder alignment in regulated environments. Targeting Senior PM roles in fintech, enterprise SaaS, and security.

EXPERIENCE

Sr. Product Manager (Product Owner) — Morgan Stanley

Jan 2021 – Present · Bengaluru

- Owns a portfolio of 5 security and people-risk products end to end, spanning visitor management, physical access control, travel risk, and background screening, often without a dedicated squad.
- Scaled a security-focused visitor management platform from 1 to 5 live locations (101K+ visitors processed, ~45K employees served), closing an entitlement-classification compliance gap and clearing a backlog of recurring access issues.
- Took a smart-lock physical access control platform from proof of concept to a five-branch pilot, designing the user-provisioning model and running the vendor security remediation programme.
- Owns the product roadmap for an enterprise e-signature and document workflow platform used across Legal, HR, and Compliance.
- Led customer discovery to find friction in document routing workflows, turning insights into a prioritized roadmap used across 3 business lines.
- Automated approval routing, reducing manual processing time by about 20%.
- Shortened document review turnaround by about 25%.
- Grew weekly active platform usage by 30% (120 → 156 users over 6 months) through a stakeholder-led change management program.
- Worked with Legal, Compliance, and IT on an access governance redesign that reduced access provisioning errors by 20%.
- Ships 12+ feature releases a year, running sprint cycles with offshore engineering teams.

Product Owner — Synchronoss Technologies

Apr 2017 – Jan 2021 · Bengaluru

- Delivered 12+ releases a year across enterprise telecom products.
- Contributed to growing product-line revenue from $1.5M to $2.3M over 3 years.
- Managed the full product lifecycle: requirements, sprint planning, UAT, release.
- Ran quarterly roadmap planning with US-based engineering and client success teams.
- Reduced post-release defects through a more structured UAT process.

Product Manager — Wooplr

Oct 2015 – Mar 2017 · Bengaluru

- Owned growth funnel strategy; an onboarding redesign improved D7 retention by 22% (A/B tested).
- Improved conversion by 18% through checkout flow optimization and personalized recommendations (A/B tested).
- Contributed to scaling the platform to 1M MAU (20x growth over 18 months).
- Launched social sharing and influencer discovery features that lifted sessions per user per week.
- Worked with design and engineering on the 0→1 social discovery feature (content feeds, creator onboarding).
- Led user interviews and usability testing to set product direction.

Product Owner — RSAB IT

Apr 2013 – Oct 2015 · Bengaluru

- Managed delivery workflows for enterprise IT clients and reduced the UAT defect backlog.
- Improved on-time delivery through sprint process improvements.

Founder — Jucicane

Oct 2011 – Jan 2013 · Mumbai

- Bootstrapped a juice brand from concept to 10 franchise outlets generating ₹20L+ monthly revenue.
- Ran operations, vendor relationships, and franchise partner onboarding.
